

## Steps to follow while creating AWS account

1. Go to the <https://aws.amazon.com/>
2. Choose Sign Up.
3. Type the requested account information, and then choose Continue.

Note: If Create a new AWS account isn't visible, first choose Sign in to a different account, and then choose Create a new AWS account.  
When creating a new account, be sure that you enter your account information correctly, especially your email address.

If you enter your email address incorrectly, you might not be able to access your account or change your password in the future.

4. Choose Personal or Professional. In our case select Personal.  
Note: These two account types are identical in functionality.

5. Type the requested company or personal information.
6. Read the AWS Customer Agreement, and then check the box.
7. Choose Create Account and Continue.

Note: After you receive an email to confirm that your account is created, you can sign in to your new account using the email address and password you supplied.

However, you must continue with the activation process before you can use AWS services.

### **Add a payment method :**

On the Payment Information page, type the requested information associated with your payment method.

If the address for your payment method is the same as the address you provided for your account, choose Secure Submit.

Otherwise, choose Use a new address, type the billing address for your payment method, and then choose Secure Submit.

We have to provide our Debit card or Credit card details.

AWS deduct 2 rupees from our account for account verification.

It will get credited in our account within one week.

### **Verify your phone number :**

1. On the Phone Verification page, type a phone number that you can use to accept incoming phone calls.
2. Enter the code displayed in the captcha.

3. When you're ready to receive a call, choose Call me now. In a few moments, an automated system will call you.
4. Type the provided PIN on your phone's keypad. After the process is complete, choose Continue.

### **Choose an AWS Support plan :**

On the Select a Support Plan page, choose one of the available Support plans. For a description of the available Support plans and their benefits, see AWS Support - Features.

After you choose a Support plan, a confirmation page indicates that your account is being activated. Accounts are usually activated within a few minutes, but the process might take up to 24 hours.

When your account is fully activated, you'll receive a confirmation email.

After you receive this email, you have full access to all AWS services.
